Transcript ID: 753737 Access Code: mezesandras

Other qualifications:

driving licence „B”

Hobbies and interests:

Taking digital photographs, listening to music, travelling, ball games, skiing, planning and designing websites, computer service and maintenance, collecting key rings, browsing on Internet, video cutting and editing.

Notice:

Since July 2002 I have been working as an entrepreneur. I take up different jobs, such as: programming, making websites, and teaching computer studies. In September 2002, my friends and me established a software developing team, called KreFiSoft where I also take part as a programmer and webdesigner.

In 2003 I left the team to be able to work in my own business and started to develop a new musicbox software.
